Fel d 1 results reported as microgram allergen per milliliter saliva.

Accession:	Sample:	Cat: Fel d 1
225-2324	4636	1.23

This report furnishes information only and is not intended to be an interpretation of the results. Whether an individual suffers allergic symptoms or not depends not only on the level of allergens in his/her environment but also on his/her medical history and previous exposure.

Report reviewed and approved by:
Stephanie Filep, BS
Director of Laboratory Services

CONFIDENTIALITY NOTICE: This report may contain confidential or privileged information that is solely for the use of the intended recipient(s). If they have come to you in error you must take no action based on them, nor must you copy or communicate them to anyone. Please notify us immediately and delete this communication.

NES = Insufficient sample for the assay
The reporting limit is 0.002 µg/ml for Fel d 1.
